COORDINATING COMMITTEE
MEMORANDUM OF THE GERMAN DELEGATION OF A PROPOSED
TRANSACTION CONCERNING 530 kg HYDRAZINE HYDRATE
TO HUNGARY.

The German authorities have received an application to licence a shipment of 530 kg hydrazine hydrate (100 %) covered by item 1731, valued at 1758 \$, to Hungary.

Following the information from Medimpex, Budapest, the hydrazine hydrate will be used partly for the production of pharmaceuticals by the United Pharmaceutical Plants in Budapest, and partly as reduction agent to bind the residue of oxygen for the boiler feed water in the pharmaceutical industry.

The request is presented within the framework of the de minimis procedure (see Cocom Doc 3620, para 12 b).

The German Delegation refer to the explanation given in Doc. 3675 on the use of hydrazine hydrate and trust that in view of this civilian end use no objections will be raised.

They propose October 1st, 1959 as deadline for objections.
